

EdReady Access – 2016-2017

EdReady Nevada is a program to assist students in Nevada from eleventh grade through college who want to:

- prepare for upcoming math classes or curriculum
- supplement their skills while taking a math class
- revisit and fill possible gaps in general math skills
- become better prepared for college math
- practice math skills needed for a desired career path or
- study and review math concepts for a standardized exam

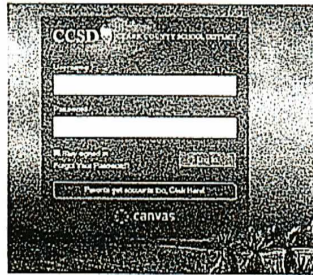

EdReady helps students avoid the time and cost of remedial courses. Students can test for college readiness, see study options, and get a personalized study path to fill in their knowledge gaps.

Students must complete the initial diagnostic and get an initial EdReady score.

Canvas Learning Management System

To access the Canvas Learning Management System – ccsd.instructure.com

Students will need to use their active directory (AD) login information.

To activate your AD login:

1. You must be at a CCSD computer the first time you access your AD login.
2. Your User Name is Your Student ID.
3. The Password is your Birthday (YYYYMMDD).
4. There will be a prompt to change your password.
(Remember your password in order to access Canvas anytime at home or school.)

Access EdReady:

1. Access CANVAS at <https://ccsd.instructure.com/>.
2. Log in using your AD credentials.

11th Grade Students:

1. Select ACT Preparation.
2. Take the diagnostic assessment.
3. Review data-strengths and weaknesses.
4. Work through your custom course of study (lessons) to improve scores and hit target scores.

12th Grade Students:

1. Select ACT Preparation, College Readiness, or Accuplacer.
2. Take the diagnostic assessment.
3. Review data-strengths and weaknesses.
4. Work through your custom course of study (lessons) to improve scores and hit target scores.
