

SEVEN HILLS HOSPITAL

ADULT DRUG & ALCOHOL DETOX & REHAB

DETOX PROGRAM

Seven Hills Hospital's detox program offers adult patients struggling with addiction the medical supervision needed to safely withdraw from drugs and/or alcohol. Medically managed withdrawal is only the beginning of the recovery process and is administered in a safe, confidential, and clinical environment that ensures the least amount of discomfort during treatment. Our medical team puts forth every effort to ensure that patients going through detox receive excellent service at every level.

REHAB PROGRAM

Our top of the line rehab program uses a holistic approach to treatment that is centered on healing the mind, body, and spirit. We guide our patients in recognizing the areas of improvement and choices that are required to make a positive change in their lives. Our patients reside in comfortable living quarters and gain a better understanding of addiction through our treatment services.
